

# Cut the Fuel Tax

**The Government has announced a 3p rise in fuel tax over 2010. With fuel taxes already at record levels, this will have a disproportionate impact on rural areas, where people are more dependent on their vehicles. Please sign Richard Younger-Ross's petition to ask the Chancellor to reverse this tax in the inevitable post-election Budget.**

-----

To The Chancellor of the Exchequer

We the undersigned call on you to reverse the 3p rise in fuel tax as soon as possible. We believe this has a disproportionate and unfair effect on people living in rural areas, who rely on their own vehicles.
